PROFESSIONAL SUMMARY

Senior Software Developer with 8+ years of experience building scalable, enterprise-grade applications across fintech, e-commerce, and public sector. Deep expertise in **Node.js**, **Shopify**, **.NET**, and **React**, with hands-on experience integrating **Shopify APIs** and **REST/GraphQL** services into production systems. Proven ability to deliver clean architecture solutions, secure authentication flows, and high-performance backends in agile, remote environments. Passionate about developer experience, code quality, and building integrations that scale.

SKILLS CORE

Additional technical skills and full project experience available upon request. **Happy to walk through specific projects in a conversation** and share the complete **CV**.
